

Md. Jewel Rana

Mern Stack Developer

Email: js.rana0326@gmail.com

Mobile: +880 1533850435

Address: Mirpur Dhaka, Bangladesh

[GitHub](#) [LinkedIn](#) [Portfolio](#)

SKILLS:

Expertise: HTML | CSS | Bootstrap | Tailwind | Daisy UI | JavaScript | ES6 | React | React Bootstrap
Comfortable: Firebase | ExpressJS | Devtool and Debugging | Context Api | Awesome React Component | MongoDB
Familiar: Node | Jwt | Axios | Tan Stack Query | Redux
Tools: VS Code | Github | Figma | Netlify | Vercel | Postman | Mongoose

PROJECTS:

BT Sports [MERN]

The Bismillah Tower Sports Club website manages finances, member activities, and equipment usage, offering insights into deposits, expenses, campaigns, and more, with admin controls, rules, and notices.

Link: [Live Website](#) | [Live Server](#) | [Github Client](#) | [Github Server](#)

Feature:

- **Comprehensive Management:** View and manage total deposits, expenses, remaining balance, fund campaigns, member payments, and equipment usage including ball losses and returns.
- **Administrative and Informational Tools:** Utilize admin options for advanced management, access club rules, and post important notices and updates.
- **Responsive Design:** Ensure the website is accessible and functional across various devices and screen sizes.

Technologies: React.js, TailwindCSS, DaisyUI, TypeScript, JWT, node js, Express.js, MongoDB, React hook form

Sporting Goods [MERN]

Sporting Goods is a MERN stack e-commerce app designed for sports enthusiasts. It offers easy browsing, filtering, and sorting of sports equipment and apparel, along with features for product management, image handling, and user interactions.

Link: [Live Website](#) | [Live Server](#) | [Github Client](#) | [Github Server](#)

Feature:

- **Authentication and Authorization:** Manages user login, registration, and access control with JWT tokens and bcrypt.
- **Validations (Zod):** Ensures data integrity and correctness with schema validation.
- **Product Management:** Handles sorting, filtering, image uploads, and shopping cart functionalities for efficient product browsing and purchasing.

Technologies: React.js, TailwindCSS, DaisyUI, TypeScript, JWT, Redux, node js, Express.js, bcrypt, MongoDB, zod, hook form

Frontend Project :

1. RRAD : [Live Link](#) [Github Link](#)
2. Miro : [Live Link](#) [Github Link](#)
